Dear Mr Swarnkar,

I am pleased to share some of the experiences of my association with an institution from where I graduated and got an opportunity to serve as a lecturer after my post-graduation. The teacher- taught relationship has been an example of student becoming a colleague and then an extended family.

I recall the time when climbing 47 steps to reach a class room or assembly hall used to be greatfun. The tall and beautiful murti of Ma Saraswathi was always an attractive life like figure to inspire all the students. At the same time our visionary principal Mrs. Uma Johri ensured that there was holistic development of personalities, for which she promoted sports, theatre activities, music and fine arts along with the entire educational activities.

With the space available many new dimensions were added and oldest girls college in MP became sought after college for admission.

Dr. Satya Sapra brought in many changes with perfect discipline. The other principals like Mr G P Sharma, Mrs Lalita Aaksar, Mrs. Asha Mathur etc. also had their tenure of advancement and achievement.

The college today also has its glorious status of an exemplary institution to empower women and help the weaker and marginalised sections of society. I distinctly remember how Dr. Sapra with her colleagues and students used to organised camps in college to identify persons with disabilities and in collaboration with Amar Jyoti Charitable Trust, distribution of aids and appliances was done in each camp. Dr Sapra also helped several other national level camps and seminars where the human values inculcated by the college authorities were very well exhibited.

We certainly need many such colleges who not only produce good citizens but also become role models for others to replicate.

My best wishes for a significant growth of the institution in future.

Dr. (Mrs.) Uma Tuli
Founder & Managing Secretary
Amar Jyoti Charitable Trust
Former Chief Commissioner (Disabilities)
